

WORK FLOW

Your journey with Blue Wing as your Strategy & Risk Manager. Success is madness; we bring the method.

FACILITATE 2

We'll work to raise capital – identifying possible sources, producing funding proposals, and integrating financing into existing financial systems. We'll provide guidance on appropriate financing for each stage of your company's growth and create a robust financing plan. This includes debt and equity financing for all stages of growth, operating agreements, investor arrangements, and tax planning.

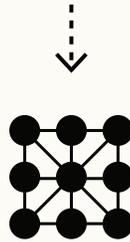

EVALUATE 4

We'll facilitate strategic planning sessions with managers and core staff to create cross-functional teams for staff input, buy-in, and accountability. We'll create a financial and operational road map for you to achieve all of your business goals. We'll help you identify leverage points to maximize your network of stakeholders.

1 ANALYZE

We'll design, build, and implement a risk management system for your business. We'll take your owners, managers, and board members through a risk tolerance analysis to inform company culture. We'll help you anticipate and mitigate potential threats if they become reality, and create safety plans for manufacturers that are compliant with federal and state guidelines.

3 IMPLEMENT

We'll manage assets and liabilities for multiple firms, joint ventures, co-packing and contract production agreements. We'll focus on expansion across state lines and into national distribution. We'll identify liabilities and nexus for sales, franchise, and income tax, and implement compliance systems for all state and federal guidelines.

5 SCALE

We'll identify certifications and industry associations that are a best-fit for you to leverage and augment your brand and networks. We'll manage the application and certification process, integrate certification standards into your business operations, and maximize your certification and trade group memberships. In short, we'll help you lead the industry on all fronts.

We help brave people build revolutionary businesses.
